

4TH CLIMATE PARTNERSHIP MEETING BOTTROP – AGIOS DIMITRIOS

SUMMARY

28-30 January, 2020 in Bottrop, Germany

ENERGY MANAGEMENT AND MONITORING

Panagiotis Tzinieris & Ilias Savvakis, Ag. Dimitrios

„In Agios Dimitrios, we have 49 municipal buildings, of which 7 are used for the administration. Our smart metering system in the administration buildings has been installed, but we need to improve its functioning.“

„We have set up a research project with academic actors to find the best way to digitalise and operationalise energy consumption monitoring, and ultimately, to identify potentials for energy savings in municipal buildings.“

Patrick Drost, Energy Manager, Bottrop

GREEN SPACES: PROJECT PLANNING AND IMPLEMENTATION

„We see green spaces as very important recreational areas with both social and environmental functions, especially regarding biodiversity. We also have beehives and thus produce a little honey.” Tilman Christian, Bottrop

„We are very interested in the project planning process of green spaces in Bottrop. Which level of detail do you work with? Let’s have one project translated so we can compare, and ideally apply it to our own planning process.” Panagiotis Tzinieris, Agios Dimitrios

FIELD TRIP TO ESSEN

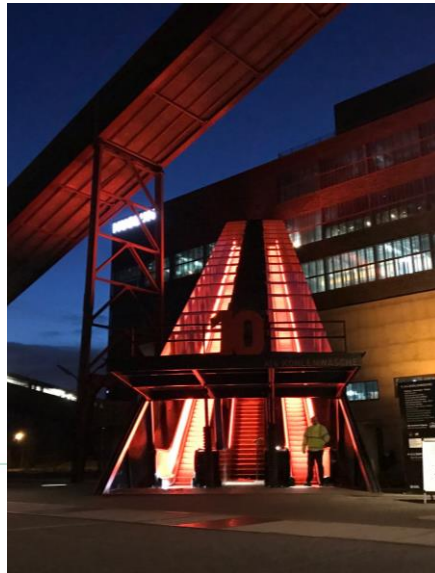

Ruhr Museum at Zeche Zollverein

Katrin Knur illustrating plans and built route of Germany's first bike high way RS1 at Café Radmosphäre

At Ruhr Museum: a guided tour through the Ruhr areas' structural change and polluted past

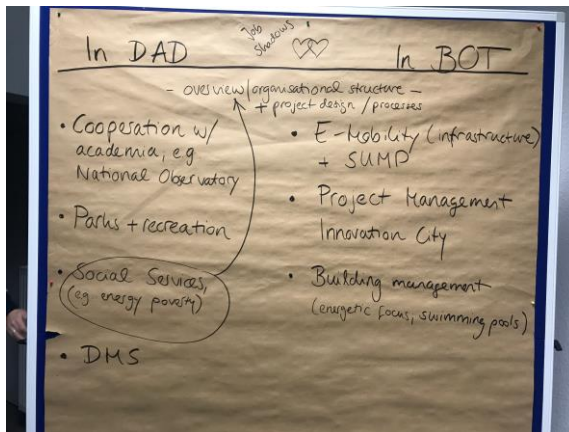

PROJECT DEVELOPMENT: JOB SHADOWING

Step 1: Discussion of practical implementation, responsibilities, timeframe and logistics

Step 2: Collecting and presenting topics for job shadowing. What topics or projects could be interesting for the partners? What would we like to learn?

Step 3: Prioritising common and separate topics for each visit, identification of the need for an introductory and a closing session.

PROJECT PLANNING OUTCOMES AND NEXT STEPS

Job shadowing:

- adelphi, BOT and DAD to draft a concept for the job shadowing
- adelphi to draft a budget
- Communication of concept with political level in municipalities

Envisaged time frame for job shadowing

BOT: 29.09.-02.10.2020

DAD: 19.-23.10.2020

NEXT STEPS AND PLANNING AHEAD

To translate:

BOT to provide a project implementation and planning outline of Park Welheim (Lisa to liaise with interpreters)

Envisaged date	No. of meeting, Location
03.-05. June 2020	5 th meeting, Ag. Dimitrios
02.-04. December 2020	6 th meeting, Bottrop

5th meeting: Green spaces excursion in DAD, energetic equipment of swimming pool, preparation of job shadowing

6th meeting: Street lighting (refurbishment), evaluation of job shadowing project, taking stock of the cooperation and discuss future forms of cooperation.

See you in Agios Dimitrios!
